

Founded in 1901, St. Clement's School is one of Canada's leading independent day schools for girls. We are recognized for our long-standing commitment to academic rigour and excellence within a close-knit, nurturing community. At SCS, you will find our unique small-school advantage: with 470 girls in Grades 1 through 12 learning together under one roof, every girl is known and valued. Throughout their time at SCS, our students are encouraged to question and discern, connect within and across disciplines, and persist through complexity and uncertainty.

SCS is uniquely innovative and creative, dedicated to fostering curiosity in our girls; uncovering and enhancing their passions; and giving them the courage to try new things.

We invite innovative and passionate teachers to apply for the full-time position, starting August, 2018:

Curriculum and Department Leader, Computer & Technological Studies

Reporting to the Vice Principal, Learning, Research and Innovation, this position will provide leadership to the Computer & Technological Studies Department (formerly, the Computer Sciences Department) while supporting the School mission statement, philosophy and all School policies.

The incumbent will engage in full participation in the life of the School. Key responsibilities also include teaching a full course load, leading and supporting the Robotics team, organizing and/or participating in extra-curricular trips and activities, which fall before and after school hours and on weekends.

Qualifications

Education:

- Honours Bachelor degree and Honours Specialist qualifications in one of Computer Studies, Computer Sciences or Technological Education; Master's degree is an asset
- B. Ed (I/S) and hold a Certificate of Qualification and Registration with the OCT

Experience:

- Minimum of five years of superior teaching in Computer Studies with relevant experience teaching computer programming
- Prior experience managing faculty, nurturing a positive and collaborative team atmosphere
- Demonstrated ability to improve instructional practice and foster a collaborative team environment
- Prior experience in Robotics (VRC or FRC)
- Ontario High School curriculum development experience

Relevant Skills & Attributes:

- Familiar with curriculum documents and expectations in Computer Studies and in Technological Education, i.e. Technological Design with a focus on Robotics
- Ability to draw from a wide variety of teaching and assessment strategies
- Outstanding leadership, communication, relationship management and interpersonal skills
- Strong teamwork and instructional skills
- Demonstrated commitment to girls' education, and knowledge of girls' developmental and educational needs; understanding of the middle school and senior school learner

Relevant Skills & Attributes (cont'd.):

- Must have advanced knowledge of current educational programming languages and development environments (e.g. Java, Python, HTML/CSS, JavaScript, Alice, etc.) as well as advanced knowledge of information and communication technologies and their use
- Strong and effective student-centred and project-based instructional practice
- Innovative, 21st century thinking, cutting edge technology knowledge
- Demonstrated exploration and support of interdisciplinary and inquiry-based learning opportunities
- A track record of building positive, collaborative relationships with colleagues, parents and students
- Organized, attention to detail, reliable and resourceful
- Budget management
- Demonstrated desire and ability to work and plan in close collaboration with colleagues
- Flexible, creative and innovative
- Commitment to co-curricular activities, coaching, and full participation in the life of the school
- A record of encouraging, nurturing, and supporting students' love of learning

We offer a competitive compensation and benefits package, including participation in the Ontario Teachers' Pension Plan. As a condition of employment, a criminal record check is required.

Interested and qualified candidates are invited to forward a letter of application and detailed résumé, by end of day Friday, March 2, 2018, to:

hr@scs.on.ca
