

The Buckley School values and supports diversity in the workplace and in the classroom.

## **Part-time Middle School Robotics Teacher**

The Buckley School has an opening for a part-time Middle School robotics teacher beginning in the fall of 2018. This is a 1/5 position. This teacher will be responsible for all aspects of teaching our curriculum and will help students prepare for the 2018-2019 VEX middle school division competition and/or a comparable local robotics tournament.

### **Required/Desired Qualifications**

- Bachelor's degree, preferably in a technical field
- Familiarity with VEX or similar robotic design systems
- Two years of teaching or relevant work experience, preferably working with middle school students.
- Demonstrated proficiency in Diversity, Equity and Inclusion
- Demonstrated proficiency in technology
- Exceptional ability to collaborate with faculty and administrative colleagues
- Exceptional interpersonal skills

### **TO APPLY**

Interested candidates should send their resume and cover letter to Neal Roden, Head of the Middle School at [nroden@buckley.org](mailto:nroden@buckley.org).

### **ABOUT THE SCHOOL**

The Buckley School, a college preparatory school with 830 students, is the oldest K-12 co-educational school in Los Angeles. Buckley is known for its unique educational philosophy, the 4-Fold Plan of Education, which melds a whole-child approach with elements of structure, as well as for its warm, intimate educational environment.

The school's curriculum balances academics, the arts, physical development and ethical education. Its creative, personalized approach to education emphasizes high academic standards for all students, and includes traditional touches that develop the character and discipline that unlock students' potential.
